

HEATH LANE SURGERY

IMPORTANT

SUMMARY CARE RECORD (SCR)

The SCR provides a summary of a patient's medical records to authorised healthcare professionals who are treating them anywhere within NHS England. This summary can be used in Emergency and Out of Hours care and includes such things as **allergies and allergic reactions, prescribed medication, significant medical history and immunisations.**

Nationally patients were opted into this data sharing unless they opted out.

Please select one of the three options:-

<input type="checkbox"/>	I give my consent for medications, allergies and additional medical information to be shared via SCR
<input type="checkbox"/>	I give my consent for medications and allergies ONLY to be shared via SCR
<input type="checkbox"/>	I wish to opt out of the SCR

ENHANCED PATIENT RECORD SHARING (EDSM)

When you are seen by other healthcare professionals you can choose to permit or restrict access to the information entered into your record at each of the healthcare organisations that you attend. You will be asked to give sharing consent at each organisation at which you receive care and your consent can be changed at any time. **The EDSM will contain allergies, allergic reactions, prescribed medications, medical history and procedures, immunisations, anticipatory care information, end of life preferences and communication preferences.**

Nationally patients need to opt into sharing this data.

Do you consent to sharing of data recorded here with any other organisations that may care for you?

<input type="checkbox"/>	Yes – share data
<input type="checkbox"/>	No – do not share data

Do you consent to us viewing data recorded by other organisations that may care for you?

<input type="checkbox"/>	Consent given
<input type="checkbox"/>	Consent refused
